

IEEE RESPONSE QUEST™ CHALLENGE

We are looking for visionary individuals and teams led by IEEE members to help those in need by enabling emergency and relief workers to make more informed decisions during emergencies.

When a crisis occurs, it can be hard for responders on site to evaluate these complex scenarios to help those in need. The challenge is to find new solutions by working with contributions from data science, GIS, emergency management, software engineering, and others.

Are you ready to build systems that advance emergency intelligence?

The IEEE Response Quest™ Challenge is officially open with the chance to win!

What's in it for you?

- **Change Lives:** Make a difference.
- **Showcase Your Skills:** Build new ideas.
- **Chance to Win:** Compete for major monetary prizes!

Cash Prizes

Cash prizes will be awarded to the top three overall submissions, plus a Judges' Choice award. There may also be an Honorary Mention Awards* at the judges' discretion.

US\$30,000 — 1st Prize

US\$20,000 — 2nd Prize

US\$15,000 — 3rd Prize

ADDITIONAL AWARDS

US\$10,000 — Judges' Choice Award

Prize Pool Up to US\$25,000 — Honorary Mention Awards

*The Honorary Mention Award dollars will be distributed as determined by the official judging panel.
